

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

an Experiment of the Injection of Mercury into the Blood, and its ill effects on the Lungs: as it was communicated to the Royal Society, by their late worthy Member A. Moulin, M. D. (9.) An Account of a Book; Medicina Hydrostatica or Hydrostaticks applied to the Materia Medica, skewing how by the weight that divers Bodies used in Physick have in Water, one may discover whether they be Genuine or Adulterate; By the Honourable ROBERT BOYLE, Fellow of the Royal Society, London. Octavo. 1690.

Advertisement.

THE Publication of these Transactions having for some time past been suspended, chiefly by reason that the unsettled Posture of Publick Affairs did divert the Thoughts of the Curious towards Matters of more immediate Concern than are *Physical* and *Mathematical* Enquiries, such as for the most part are the Subjects we treat of, with exclusion to many others wherewith the foreign Journalist usually supply their monthly Tracts: These are now to Advertise, that for the future the *Royal Society* has commanded them to be Published as formerly, and if possibly Monthly. And all Lovers of so good a Work are desired to contribute their Discoveries in Art or Nature, addressing them as formerly to Mr. H. Hunt at *Gresham College*, and they shall be inserted herein, according as the Authors shall direct.
